

Blister cards greenline

PRODUCT ADVANTAGES:

- greenline products have many advantages for installers and builders, to whom sustainability of the fixing solutions is very important while building and renovating.
- Nevertheless, they guarantee the same loads as comparable standard products.
- All greenline products are manufactured at least with 50% of renewable raw materials. They are certified by DIN CERTCO / TÜV Rheinland.
- Best possible emission class A+ „very low emission“.
- Data basis for an ecological building evaluation according EPD (Environmental Product Declaration of the Inst. „Bauen und Wohnen“).

RANGE:

- The first fixing range worldwide, based on renewable raw materials.
- It comprises plastic universal- and special anchors with and without screws and hooks, as well as the injection mortar FIS GREEN 300 T with approval for non-cracked concrete and masonry.
- With the seven available product groups almost every application problem can be solved.
- Plastic anchors in visual blister cards and as well in folding boxes. The mortar comes with an injection cartridge.
- Color guiding system for a quick product selection.
- Clear depicted product- and installation information.
